Hi Michael,

No problem. You can shut the unit.

I will be in Cincinnati next Wednesday Thursday the 21-22th. Is it ok with you?

Thanks,

Avi

Hi Avi,

Hope all is well! We need to shut down the unit for a few hours on 3/27 to control noise while a film crew is interviewing researchers at T&E. Would using the standby mode work for this, and do you have any concerns about it?

Thanks,

Michael
